

## A Different Kind of Solutions Delivery Company

At WDCi we know that you are frustrated with the high-cost, complexity and slow delivery of your integration projects and we plan to change all that.

You need a partner that will focus on simple, high-value integration projects that generate immediate business value.

We have built WDCi to be different from the ground up, because we know that you need to see lower-cost, faster results and an immediate ROI.

That's what WDCi is all about - applying the benefits of the SaaS model to deliver business solutions that deliver fast, measurable results; costs aligned to business benefits; innovative pricing with payment options and a turn on/turn off model.

We're innovators but we're also realists. We know that you need a co-existence approach that lets you continue with your existing software investments while taking advantage of the leading SaaS solutions available, we understand this and we know how to make co-existence work for you.

## Here's How WDCi Is Different

- We focus on immediate business value
- You choose between fixed pricing or subscription payment options
- We really do use templates and re-usable solution components
- We have a true onshore/offshore delivery model
- Our partnerships are there to get the job done
- We choose the right tool for the job
- We provide ongoing monitoring and support

## Solutions Delivery not Systems Integration

We've built our entire business model around delivering SaaS solutions for our customers as quickly and cost-effectively as possible. To learn more about WDCi and how we can work with you, please contact us at [getinfo@wdcigroup.net](mailto:getinfo@wdcigroup.net).
